

COASTAL PAIN MANAGEMENT
& REHABILITATION

ATTENTION ALL HMO PATIENTS

Please be advised that **YOU** need to be an active participant in obtaining your own authorizations for each office visit. This office will obtain authorization for you in the event a procedure is necessary. All authorizations for office visits need to be in our office the day before your scheduled appointment no later than 12:00 noon. If we do not have this, you will be called and asked to reschedule your appointment to another day.

Since insurance plans vary, we recommend that you be familiar with your plan benefits as they relate to deductibles, co-pays, and non-allowed charges **prior to your visit**.

If you have any questions regarding insurance authorizations, please call our office.

Thank you for your cooperation.
